Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 1, 3, 4, 19, 22 and 23 are rejected under 35 U.S.C. 102(b) as being anticipated by U.S. patent number 5,701,348 (Shennib et al).

Regarding claims 1, 19, and 22, Shennib et al discloses a completely in the canal (CIC) hearing aid body (figure 3, item 43) adapted to fit inside the ear canal a typical user such that a distal end (44) of the body is disposed proximally adjacent to a tympanic membrane of said user, the hearing aid body comprising a semi-rigid shell (item 43 column 7 lines 6-8) that is shaped to conform to at least a first bend in an ear canal of a typical user.

A person can wear the hearing device either left side or right side since the Shennib device does not restrict or require the device to be inserted into a left ear or a right ear (column 11 lines 65-68).

Regarding claims 3 and 4, shennib also shows a soft tip and a sound port (183) is secured at the distal end of the body.

Regarding claim 23, Shennib also shows the hearing aid body in which the tip contains a receiver (182) and a sound tube (184) extending between receiver and a distal end of the tip (see figure 32).

Claim Rejections - 35 USC § 103

3. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

4. Claims 2, 20 and 24 are rejected under 35 U.S.C. 103(a) as being unpatentable over U.S. patent number 5,701,348 (Shennib et al).

Regarding claims 2, 20 and 24, Shennib et al does not disclose the body formed of two-half shell that is joined together with hollow interiors for housing hearing aid.

However, it would have been obvious to a one ordinary skill in the art at the time of the invention was made one shell or two-half shells of a hearing aid body for a better assembly.

Allowable Subject Matter

Art Unit: 2646

5. Claim 21 is objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
